

PRISTUP EBIX XML SHEMAMA

Da bi se pristupilo EBIX XML shemama neophodno je da imate otvoren nalog na GitLab-u, a postupak je sledeći:

- u web browseru unesete adresu <https://about.gitlab.com/>
- kliknute u meniju na dugme **Sign In**

Nakon klika na dugme **Sign In** pojavljuje se Login forma na adresi:

https://gitlab.com/users/sign_in

The screenshot shows the GitLab login interface. It features two input fields for 'Username or email' and 'Password', a 'Remember me' checkbox, and a 'Forgot your password?' link. A large green 'Sign in' button is at the bottom. Below it, a link 'Don't have an account yet? Register now' is highlighted with a red arrow.

Ako imate registrovan nalog na **GitLab-u** potrebno je da unesete **username** i **password**, a ako nemate, onda je potrebno da ga otvorite klikom na link **Register now**, a nakon toga popunite zahtijevana polja:

The screenshot shows the GitLab registration form. It includes fields for 'First name' (Milan), 'Last name' (Peric), 'Username' (milan.peric), which is noted as available, 'Email' (milan.m.peric@gmail.com), 'Password' (*****), and a 'reCAPTCHA' section with a checked 'I'm not a robot' checkbox. A large green 'Register' button is at the bottom.

Pratite uputstva i popunjavate zahtijevana polja kako bi se formirao profil, prva GitLab grupa i prvi GitLab profil.

Welcome to GitLab

Dragan!

In order to personalize your experience with GitLab
we would like to know a bit more about you.

Role

Software Developer

This will help us personalize your onboarding experience.

Who will be using GitLab?

My company or team Just me

Email updates (optional)

I'd like to receive updates about GitLab via email

Continue

Kreira se prva ogledna GitLab grupa i GitLab project.

1. Your profile 2. Your GitLab group 3. Your first project

Create your group

A group represents your organization in GitLab. Groups allow you to manage users and collaborate across multiple projects.

Group name (your organization)

You can always edit this later

Group URL

Visibility level

Invite teammates (optional)

Invited users will be added with developer level permissions. You can always change this later.

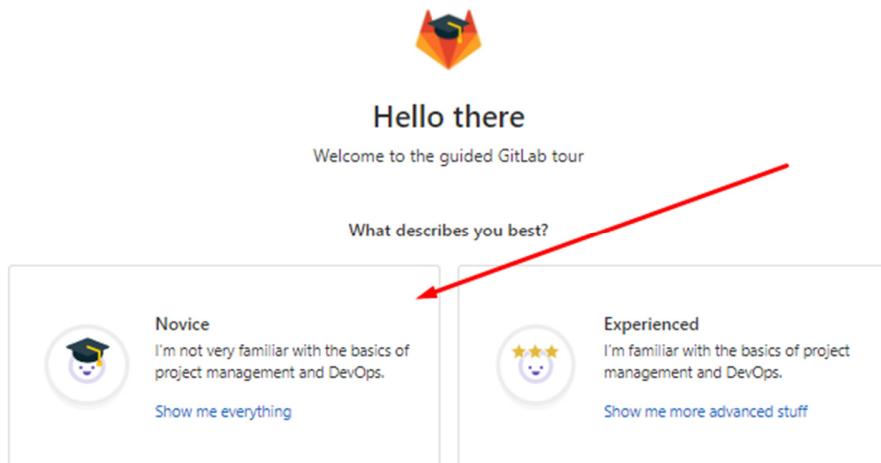

Email 1

Email 2

+ Invite another teammate

Create group

Nakon kreiranja grupe i prvog prvog oglednog projekta pojavljuje se u web browseru kreiran nalog i samo treba izabrati pogled.

Pošto smo formirali GitLab nalog potrebno je da pronađemo nacrt public EBIX shema na način da kliknete na:

Groups>>Explore groups

i u polje Search your groups unesete **BIH.EBIX** i pritisnete enter.

The screenshot shows the GitLab Groups page. At the top, there's a navigation bar with "Groups" selected. Below it, a sidebar has "Explore groups" highlighted. A search bar contains the text "Search your groups". Under "Frequently visited", it says "Groups you visit often will appear here". A message at the bottom encourages email verification. The main content area shows a search result for "BIH.EBIX", which is listed under "Your groups". A red arrow points from the search bar to the group name in the results. Another red arrow points from the group name "BIH.EBIX" in the results back to the group name in the search bar.

Nakon toga pretraga treba da pronađe **BIH.EBIX** grupu i klikom na nju pojavljuje se **public** shema na koju treba da kliknete:

Please check your email (dragan.b.rikic@gmail.com) to verify that you own this address and unlock the power of CI/CD. Didn't receive it? [Resend it.](#)

Da bi smo preuzeeli sheme sa GitLab-a imamo dva metoda:

- preuzimanje svih procesa ručno skidanjem ZIP fajla i lokalno otpakivanjem sa 7 zip arhiverom i uvlačenjem u lokalno okruženje Eclipse
- povezivanjem Eclipse razvojnog alata koristeći Git plugin i automatsko preuzimanje

U ovom primjeru je pokazano kako se preuzima ZIP fajl, dok će drugim uputstvom biti prikazan drugi metod.

The screenshot shows a GitLab repository page for a project named 'public'. At the top, there is a message: 'Please check your email (dragan.b.rikic@gmail.com) to verify that you own this address and unlock the power of CI/CD. Didn't receive it? [Resend it.](#)' Below this, there is another message: 'Wrong email address? [Update it.](#)'. The main content area shows a commit history with one commit by 'dragan.rikic' authored 47 minutes ago. To the right of the commit, there is a 'Download source code' button with options for 'zip', 'tar.gz', 'tar.bz2', and 'tar'. A red arrow points to the 'zip' option. At the bottom right of the commit card, there is a commit hash: '60b54d7a' followed by a copy icon.

Na GitLab projektu EBIX koji je public postoji i WIKI, pa će se detalji obraditi na taj način kako bi se izbjegao problem da sajt bude prebukiran nepotrebnim informacijama.

The screenshot shows the left sidebar of a GitLab project page. The sidebar includes links for 'Project overview', 'Repository', 'Issues', 'Merge Requests', 'Requirements', 'CI / CD', 'Security & Compliance', 'Operations', 'Packages & Registries', 'Analytics', 'Wiki' (which is highlighted with a red arrow), and 'Snippets'. Above the sidebar, there is a breadcrumb navigation: 'BIH.EBIX > public > Wiki'. To the right of the sidebar, there is a message: 'Please check your email (dragan.b.rikic@gmail.com) to verify that you own this address and unlock the power of CI/CD. Didn't receive it? [Update it.](#)' At the bottom right, there is a note: 'You must be a member to suggest changes'.
